List of Contents

NUMBER 1

Softstrip	i	Softstrip® data strip containing the contents list of this issue of *Computers & Industrial Engineering*
E. Emory Enscore Jr, Kenneth Knott and Benjamin W. Niebel	1	Cluster analysis—an alternative to statistical distributions for determining slotting schemes used in determining indirect work standards
G. T. Stevens Jr and H. R. Parsaei	9	A capital investment model for elastic demand and non-linear production capacity
Yash Gupta, Avinash Dharmadhikari, C. R. Bector and Wing Sing Chow	23	Information theoretic approximations for single server queueing systems
Moshe Dror and Alan Stulman	39	Optimizing robot's service movements: a one dimensional case
Harold M. Hall and Gerald W. Evans	47	A simple method for estimating the duration of a resource-constrained project
Bong Jin Yum	57	Statistical calibration when both measurements are subject to error: a simulation study
Amitava Mitra	67	Minimum absolute deviation estimation in regression analysis

NUMBER 2

Softstrip	i	Softstrip® data strip containing the contents list of this issue of *Computers & Industrial Engineering*
Avi Rushinek and Sara F. Rushinek	77	Audit trails of System Replacement (SR) and user satisfaction: an empirical study of Micro, Mini and Mainframe computers using a telecommunication Decision Support System (DSS) network
Japhet S. Law and Hsing-Wei Chu	91	Models to predict efficiency of two network flow based algorithms on the Time–Cost Trade-Off problem
Balasubramanian Ram, Sanjiv Sarin and Arup Mallik	99	A methodology for projecting course demands in academic programs
Steven L. Lidke and Eric M. Malstrom	105	A recursive computer algorithm for determining joint probability inventory distributions

F. Max Croft and **Roy T. Cantrell**	117	Performance measurement applied to large scale interactive computer systems
S. K. Khator and **S. A. Irani**	131	Cell formation in group technology: a new approach
Soundar R. T. Kumara, R. L. Kashyap and **C. L. Moodie**	143	Expert System for industrial facilities layout planning and analysis

NUMBER 3

Softstrip	i	Softstrip® data strip containing the contents list of this issue of *Computers & Industrial Engineering*
Nazim U. Ahmed and **Jatinder N. D. Gupta**	153	An efficient heuristic algorithm for selecting projects
Tzvi Raz	159	Integration of new computer technologies in an industrial engineering academic department
S. M. Alexander	167	An expert system for the selection of scheduling rules in a job shop
Sarah F. Rushinek and **Avi Rushinek**	173	An application model for computer assisted design and manufacturing using a product evaluation and selection system
Reuven R. Levary and **Tae S. Choi**	181	Entropy-based multiple criteria for capital budgeting
Elsayed A. Moty and **Tarek M. Khalil**	193	Computerized signal processing techniques for the quantification of muscular activity
Jeffrey D. Camm, James R. Evans and **Norman Keith Womer**	205	The unit learning curve approximation of total cost
Harold J. Steudel and **Arvind Ballakur**	215	A dynamic programming based heuristic for machine grouping in manufacturing cell formation
Thuruthickara C. John and **Yih-Bor Wu**	223	Minimum number of tardy jobs in single machine scheduling with release dates—an improved algorithm

NUMBER 4

Softstrip	i	Softstrip® data strip containing the contents list of this issue of *Computers & Industrial Engineering*
Bruce R. Feiring	231	A parametric analysis of linear integer programming problems
H. L. Ong and **T. N. Goh**	239	Routing and scheduling of wardens for public car park inspection
Boma T. Afiesimama	249	Aggregate manpower requirements for strategic project planning
David J. Wright	263	The value of information on invoices in forecasting for cash management
Radhakrishnan Jayaraman and **Michael P. Deisenroth**	275	An interactive programming system for the IBM 7545 robot
Johnson Aimie Edosomwan	283	Understanding computer-aided manufacturing impact on total productivity
Mohammad Ilyas	291	Window flow control in computer communication networks
D. L. Carver	299	Producing maintainable software
S. M. Alexander	307	The application of expert systems to manufacturing process control
W. S. Lim and **S. Vajpayee**	315	Development of a vision-based inspection system on a micro-computer
